

886 Facility Post

with Standard Width Webbing

Perfect for indoor and outdoor use. Features a heavy duty base with easy carry handles. Ideal for health and safety applications

Features & Benefits

- The facility post features a lightweight plastic post that screw fixes into a recycled rubber heavy duty base.
- The post and base can be quickly and easily dismantled for easy storage and transportation.
- The robust base can be walked or driven over and it will still retain its shape and function.
- Ideal for indoor and outdoor use, but shouldn't be permanently placed outside.
- The safest barrier on the market – our cassettes have a unique braking system for slower webbing retraction.

Product Specification

- Plastic post available in 4 UV stable colors.
- Black recycled rubber base with easy carry handles, which allows for the post to be easily screwed into place.
- Shipped flat packed with no tools required.
- Available with any Tensator® standard (2") webbing options.
- Modular webbing cassette – all cassettes come as standard with our four-point anti-tamper webbing connectivity. This allows you to connect other Tensabarrier® products to the receiver splines on the cassette head.
- Compatible with all Tensabarrier® accessories including our range of post top signage.

Applications

- Eliminate unsafe working conditions by clearly defining routes.
- Restrict access to dangerous areas.
- Use to identify hazards before they cause harm.
- Ideal for warehouses, industrial and maintenance areas.
- Indoor and outdoor use.
