

# 890 Slimline Post

## With Standard Width Webbing

Contemporary and stylish slim design. Features the universal base, with the lowest leading edge on the market - enabling accessibility for all. Ideal for a variety of applications.

## Features & Benefits

- The slimline post features a high quality steel post with a unique, slim 2" diameter design.
- It comes as standard with the universal base, which has been designed with accessibility in mind.
- The cast iron base edges taper towards the floor, to ensure wheelchairs, stroller and suitcases can roll over the base with ease - creating a less obstructive queue environment.
- Optimum post height, ensuring difficulty for customers to go underneath or over the webbing barrier.
- The safest barrier on the market - our cassettes have a unique braking system for slower webbing retraction.
- 36° displacement angle, preventing the post from easily toppling over.

## Product Specification

- Metal post available in range of powder coated colours or metal finishes.
- Available with any Tensator® standard (2") webbing options.
- Modular webbing cassette - all cassettes come as standard with our four-point anti-tamper webbing connectivity. This allows you to connect other Tensabarrier® products to the receiver splines on the cassette head.
- Comes as standard with an anti-tamper tape end.
- Compatible with all Tensabarrier® accessories including our range of post top signage and wall clips.

## Applications

- Enhance and manage queuing spaces.
- Cordon off out of service areas.
- Ideal for a variety of applications including: airports, retail outlets, hotels, casinos, movie theatres.
