

Hand Sanitiser Unit

An automatic hand sanitiser unit that can easily be installed onto any Tensabarrier® post.

Hands free 'no touch' hand sanitiser dispenser

Can easily be refilled with any hand sanitising liquid*

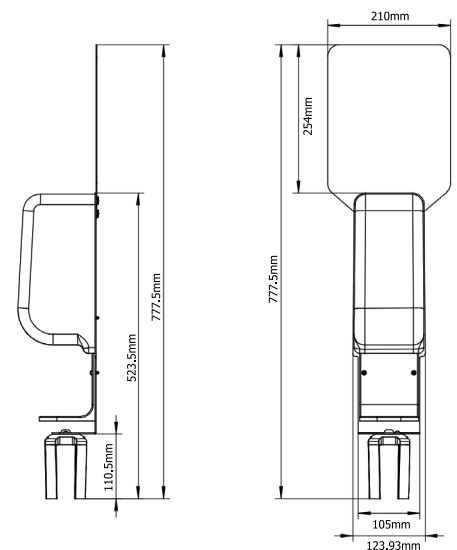

Easy installation – fits onto any Tensabarrier® post

Features & Benefits

- A lightweight portable hand sanitiser unit that can quickly and easily be deployed in any environment.
- It has a built in sensor with a hands free hygienic 'no touch' functionality – it dispenses hand sanitiser by simply placing your hands underneath the unit.
- Can easily be refilled with any hand sanitiser brand.
- An easy clean drip tray catches any unwanted sanitiser to ensure no spillages on the floor.
- Can be easily mounted on top of any Tensabarrier® post and removed when not in use – an optional attachment on the bottom of the sanitiser unit means it easily slides on and off the top of the post.
- Can easily be incorporated within a queue or as a stand alone unit within any environment.
- Acrylic signage on the unit quickly communicates how to use the unit and can be customised to your branding.
- Battery operated – only requires x4 'C' size batteries.
- Other mounting options – by adhesive pads directly onto any surface or mounted via screw fixing as required onto any appropriate surface.

* Not suitable for thick hand sanitizing gel.
