

Impulse Tower

The Impulse Tower allows you to merchandise anywhere in the store.

The standalone circular design of the Impulse Tower allows the unit to be shipped 360 degrees.

The nature of the unit combined with the transparent polycarbonate bowls makes merchandise stand out to the shopper. Most importantly the vertical design gives a large merchandising capacity for only 342mm of floor space optimising revenue per square metre performance.

Features

- Knock down feature makes for smaller freight dimensions and less costly shipping
- Polished chrome finish black ABS plastic base
- Incorporates 4 transparent bowls for merchandising
- Optional bowl dividers allow for the ultimate in merchandising space, dividing the bowl into quarters, please specify on order
- Optional signage available measuring 127mm x 178mm (5" X 7"), please specify on order
- High strength polycarbonate resists scratching
- Large capacity for minimal restocking

Benefits

- Generates exceptional revenue per metre of floor space
- Circular design can be accessed from any direction
- Transparent polycarbonate bowl provides an excellent showcase for impulse items
- High strength polycarbonate resists scratching
- Large capacity for minimal restocking
- Lightweight and easy to reposition
