

# QueueWay® 10m Traffic Cone Topper

A weather-resistant, tool-free solution that transforms standard traffic cones into a highly visible and adaptable temporary barrier, extendable up to 10 metres. Ideal for health and safety applications.

## Features & Benefits

- 10 metres of red and white chevron retractable webbing, housed in a durable orange plastic unit that easily slots onto a standard road cone.
- Transforms traffic cones into an adaptable, cost-effective temporary barrier system that sets up in seconds, tool-free, for quick deployment.
- Robust ABS plastic body offers strength and durability for prolonged use in harsh outdoor environments.
- Easily screw in sign on top to transform the barrier into an effective signage solution.
- Anti-tamper tape ends prevent unauthorised tampering, ensuring system integrity.
- Toggle lock secures the belt's retraction or extension, maintaining tension and preventing accidental adjustments.
- Unique braking system ensures slower, safer webbing retraction.

## Product Specification

- Available in highly visible, UV-stable orange colour for increased visibility.
- Sold separately from road cones; no tools required for setup.
- Minimum of two units required to create a barrier.
- Modular webbing cassette with four-point anti-tamper connectivity included as standard.
- Features an anti-tamper tape end to prevent accidental release of the retractable webbing.
- Ideal for indoor and outdoor use, but not for permanent outdoor placement.
- 4-point anti-tamper webbing connectivity, allowing you to connect other QueueWay® Traffic Cone Toppers to the receiver splines.

## Applications

- Eliminate unsafe working conditions by clearly defining routes.
- Restrict access to dangerous areas.
- Use to identify hazards before they cause harm.
- Ideal for construction sites, maintenance, warehousing companies and highways agencies.
- Suitable for indoor and outdoor use.
